Around the Globe

www.clearpointweather.com

What do you need to navigate each day?

- ▶ *The ability to see beyond the horizon.*
- ▶ *Tools to anticipate the weather.*
- ▶ *Knowledge of what lies beneath the waves.*

Whether you're a captain or racer, angler or cruiser, you have to be able to predict how seas and currents are changing. The weather is rapidly shifting in ways that will affect you and your boat over the next several hours or days and you will need the right forecast to make the right decision.

ClearPoint High Definition Weather™ enables you to make highly informed decisions based on accurate, reliable weather data. We apply the latest in advanced technologies to the challenge of accurately detecting and forecasting weather and deliver directly to you, the most comprehensive, high-definition, continuous weather information available.

How do we do this? We offer a range of specialized subscription services with thousands of weather data combinations, bringing safety and predictability to your world on the water—anywhere across the globe.

Now, you're just a few clicks away from making informed decisions based on high resolution, high definition data on weather and sea conditions.

SIMPLE GRAPHIC ICONS FOR ALL CRITICAL DATA AND AN EXPANDABLE DROP DOWN TOOLBOX

The weather service you can trust around the globe

Featuring the most advanced predictive technology, ClearPoint High Definition Weather™ allows you to predict changes in weather as you chart your course up to five days in advance.

- ▶ **Resolution** With ClearPoint's powerful, weather modeling technology, you can rely on data up to ten times the resolution of conventional weather software. And our Racing Edition™ offers wind data as high as one nautical mile resolution—the most accurate in the industry.
- ▶ **Range** ClearPoint has a truly global footprint, covering seven continents, both poles, and the seven seas. That means you can take advantage of our services whether you're traveling around the world, or across the bay.
- ▶ **Comprehensive** You can see detailed, "always on," real-time and predictive data on key marine applications including winds, waves, currents, fronts, visibility, clouds, lightning, tropical storms, hurricanes, bulletins, alerts, and more.
- ▶ **Easy to Use** ClearPoint's intuitive, graphical interface delivers complex data via easy to read touch-screen icons. ClearPoint's services can be downloaded over any Internet connection and launched on any PC-based display.
- ▶ **Compatible** ClearPoint's services are accessible over multiple transmission technologies, from broadband to satellite to WiFi—anywhere in the world.
- ▶ **Support** Our experienced team members are ready to support you whether you are located in the Americas, Asia-Pacific, Europe, Middle East or Africa.
- ▶ **Economical** Winds, fronts, pressure, currents, satellite, bulletins and forecasts are delivered to you in an optional low-bandwidth mode, so you can easily control your satellite download size.

► LIGHTNING, GLOBAL, 40° X 40° COVERAGE

►► ClearPoint High Definition Weather™

Our core service aggregates and delivers all the weather information you need to navigate with confidence.

- **Real-time and Location-Specific** ClearPoint High Definition Weather™ shows the prevailing conditions at your location, tracks your craft, and *automatically* sends alerts for your changing position — anywhere in the world.
- **Comprehensive and High-Resolution** From visibility, precipitation and wind speed to sea temperature and wave height, ClearPoint delivers multiple combinations of weather data up to ten times the resolution of other weather services.
- **Accurate and Reliable** Featuring the most advanced predictive technology, our highly accurate weather forecasting — tailored to your precise location — allows you to plan a safe course up to five days in advance.

While accurate forecast data enhances weather decision-making, wind and wave conditions also affect fuel consumption and, ultimately, the cost of your trip. With ClearPoint you can plan a safe trip and at the same time watch your bottom line.

► WAVES, 2525 X 1333 REGION

► CONTINUOUS WEATHER BULLETINS AND ALERTS

► WIND/SATELLITE/TROPICAL STORM
0.08° SPACING, 40° X 40° COVERAGE

➤➤ ClearPoint Sport Fishing Edition™

With ClearPoint's all-in-one fishing and weather package, you're on your way to finding the fish you came to catch — anywhere in the world.

- **Specialized** Designed specifically for fishing enthusiasts, ClearPoint's sport fishing services help you determine where bait tends to shelter.
- **Comprehensive** Altimetry services provide vital sea surface data. Combined with sea temperature, chlorophyll and bathymetry data, fishermen can determine surface water current direction to discover areas of cold, deep water upwelling — a leading indicator of the presence of fish. Our advanced chlorophyll data measures the presence of algae, a source of food for most marine life.

Whether you are fishing in lakes and rivers or bays and oceans, ClearPoint Sport Fishing helps anglers find the perfect catch faster by enabling them to chart a course based on the most advanced predictive data.

➤ SEA TEMPERATURE
1° SPACING, 40° X 40° COVERAGE

➤ BATHYMETRY/ALTIMETRY
3° X 3° COVERAGE, 1/30° RESOLUTION

EASY-TO-READ
LEGENDS

5 NM WINDS, 1 NM WINDS

➤➤ ClearPoint Racing Edition™

Gain the strategic and tactical edge with ultra high resolution data on wind direction, speed and gusts in your precise location.

- **High Performance** ClearPoint Racing offers industry leading high resolution wind models at 1 nm, 5 nm and 15 nm resolutions. Plus, all the benefits of our core weather service including direct access to location-specific fronts, currents, radar and satellite data will give you the competitive advantage to finish first.
- **Easy to Use** With ClearPoint's intuitive graphical interface, critical real-time weather data is delivered in a clear, easy to read format with intuitive icons and drop-down utility tools.
- **Convenient** ClearPoint Racing is available through flexible daily/annual "pay as you go" or unlimited annual subscription options allowing you to select the payment schedule you want.

For competitive sailors, victory depends on gaining an advantage by finding the wind and harnessing its strength. ClearPoint Racing delivers always-on, real-time and predictive data, optimized for high-performance racing venues.

► CURRENTS, 1/6° SPACING, 20° X 20° COVERAGE

►► ClearPoint Basic Edition™

Our Basic Edition offers accurate, real-time data on eight mission-critical weather applications—anywhere in the world.

► **Affordable** With our Basic package, ClearPoint delivers high quality wind resolution data and detailed data on waves, radar, fronts, satellite, currents, air temperature, point forecasts and bulletins as a daily, six-month seasonal and annual package accurate and dynamic marine high resolution weather forecasts.

► **Accessible** Compatible with virtually any transmission technology from broadband to satellite to WiFi, ClearPoint services can be downloaded over any Internet connection and launched onto any laptop, tablet, or other PC-based display devices or handheld computers.

Our Basic Edition provides sailors, captains, and recreational boaters with precise and dynamic forecasts and essential weather data anywhere in the world.

►► ClearPoint Premium Edition™

For the truly global seafarer who wants to take advantage of everything ClearPoint has to offer — from tracking weather and monitoring sea conditions to harnessing the wind and finding the perfect catch.

► **All in One** ClearPoint Premium Edition is the ultimate package of services combining our core weather features with our high-performing Sport Fishing and Racing Editions.

► **Reliable** There's no substitute for using the latest in advanced predictive technology to anticipate shifts in the weather and changes in sea conditions anywhere you sail, race, fish or cruise. ClearPoint enables you to plan and chart your course up to five days in advance based on accurate, location-specific weather data you can rely on, every time.

ClearPoint Premium Edition, our top of the line premium service, is perfect for racers, anglers and cruisers as well as marinas and coastal resorts seeking to expand their services or enhance their charter sailing and fishing expeditions and other watersport offerings.
